The $200,000 elementary school of eight classrooms, designed to accommodate 400 students on the 10-acre lot site was the eighth in the Campbell elementary school district. CHARLES ROSE IS CANDIDATE FOR CITY COUNCIL

Charley Rose, for whom nomination papers for election to the Campbell City council in the April elections are circulating in the city, was born in Campbell.: He is the owner of "Orchard City Grocery and Appliance" store on Central avenue.

In association with his father, the late Dan Rose, Charles Rose was a partner in two other branches of the store in Campbell, at Latimer and Winchester avenues.

While born in Campbell at 248 North Central avenue, Rose was in the produce business at Salinas for 13 years from 1932 to 1947.

In announcing his candidacy for the City Council seat, Rose said Campbell has a great potential, but feels that the business sections of the city are not keeping pace with the rapid growth of school districts and other business sections of the Santa Clara Valley.

Industrial growth of this area is not keeping pace with the great increase of population.: More payroll checks would help Campbell economically.:

Rose said he would run for the city council at the insistence of friends, who see in him a strong representative and spokesman for greater development of the business sections of the city.

Change In Insurance Rates Follows Underwriters' Survey

Substantial rate increases for industrial buildings are made in a new rate book for Campbell set up by the Pacific Insurance Underwriters and based on the recent inspection here by their surveyors, according to a letter read before the City Council Monday by Dorothy Trevethan, city clerk.

Sam E. Hayes, chief engineer for the Fire Underwriters explains in the letter that the increase is due to a number of factors. Entirely new reports were made and changes noted in both construction and occupancy which he stated had not previously been noted.: Some rates were increased due to changes in schedules and rating methods.: Hayes said rate increases were not due to deterioration of local fire fire protection, for Campbell has been graded at class six for a number of years and is to continue that grading under the present rate.:

The new rates which will carry an effective date of February 15, 1954 and are applicable only to policies haveing effective dates subsequent to December 15, 1953 provide:

Masonry mercantile buildings 9% increase but a 2% decrease on contents; a 9% reduction on frame mercantile buildings and 12% reduction on contents; a 35% increase on masoonry industrial buildings; 39% on frame industrial buildings and 6% increase on school buildings and on contents.

Measles Plague School Children In Campbell

Over 17 cases of measles were reported in Campbell this week by Dr. Elwin Turner, Santa Clara County Health Officer.

In Santa Clara County 575 cases have been reported to date as compared with 42 at the same time last year.

"It is an epidemic year in the county", said the doctor. "But it was entirely expected".

"Measles run in a normal cycle with an epidemic every third or fourth year. And this is our year", he said.

Once a person has had the measles, the doctor continued, he acquires a permanent immunity. Probable reason for the three or four year epidemic is that it takes that long to acquire a new crop of susceptible children.

Ground Broken For New Dover School Here

Ground was broken this week for the new Dover school, the ninth elementary school in the district, C. E. Bradley, business manaager, said yesterday.

Contractors Nielsen and Nielsen said they expect to pour concrete with in two or three weeks for the school which is to have seven classrooms, two kindergartens and an administration building.

The school will cost $151,873. It is to be located at 840 Sheffield avenue, on the east side of the San Jose-Los Gatos Road near Hamilton avenue and will relieve enrollment at Hamilton school by serving the expanding population of the area.

Campbell Union Elementary School District officials also hope Monroe School, now in the planning stage, will be on the April agenda of the State Allocation board at Sacramento.

This school to be located at the end of Caputo acres, will service the north end of the district.

City Considers Contract With County To Impound Strays

Some plan for the impounding of unlicensed dogs will be worked out between the city of Campbell and the County Health department if a contract submitted to the city council Monday night is approved, following a report next Monday from Joseph Bonacina, city attorney. The city would pay $4 for each dog impounded and the agreement would be to June 30th so that plans may then be more definite. The county department will operate with Los Altos, Sunnyvale and other cities, according to tentative plans.

Ann Meridier, principal of Cherry Lane school thanked the council in a letter for fixing roadways used by the children to this new school and invited members to the dedicatioon held last night.

Council set March 22 as time for hearing recommendation from the planning commission to change property of William C. Henley at 121 South Winchester Road from R-2-S to R-3-S. On the same date they also will hold a public hearing on the m aster plan of streets and highways as recommended by the planning commission.

An applicatioon for removal of two sycamore trees in a parking strip at 26 Sanford Lane submitted to the council by Mrs. E. P. Flood was referred to LeRoy Black of the Maintenance department. Councilman Ahrens moved that all such applications in the future be first referred to Black.

There was quite a legal discourse on a proposal to revoke a permit issued in July 1952 on Parlato property corner of Hamilton and Winchester roads so that a new permit could be issued for a service station there. Bonacina said the council could revoke the use permit and make the way clear for the planning commission to act on the new application. Nestor Barrett said two hearings had been held by the planners and one by the council. Mayor Morton was reluctant to revoke the permit without giving residents in the area an opportunity to be heard and proposed to Parlato that approval signatures be obtained regarding new proposed use. Councilman J. M. Dahl proposed the permit granted in 1952 be revoked without prejudice, his motion carrying by 3-2 vote with Morton and Councilman Josepe Gomes voting "no".

The council then adopted a prevailing wage scale so that street work projects can get under way, as proposed by City Engineer Mark Thomas.

Thomas is to arrange a meeting with B. W. Booker of the State Division of Highways to finalize route 4 freeway agreement. Traffic signals if needed would be installed by the state for the flow from the interchange to Hamilton avenue, but if the signals have to be installed at some future date, the city would have to share the cost. Thomas said his understanding is that wires and standards will be set in place and that cost will be nominal.

Winchester Widening Has Top Priority On County Road Agenda In Campbell

Preliminary work on widening Winchester Road to four lanes, from Campbell city limits to Stevens Creek Road, has been completed according to assistant county engineer Enocks, and actual construction depending on state approval of funds, is contemplated for the first of July. Also on the county engineering plans for road work in and around the Campbell area is an expected widening to four lanes of Quito Road which runs through the San Tomas district from Saratoga Avenue in Los Gatos to the Saratoga-Santa Clara Highway.

Winchester, however, has top priority as a Federal Aid Secondary matching funds project, and county engineers say they are ready to begin actual construction within six weeks, depending on state approval of county design. The Winchester road is expected to play a large part as a feeder line to the proposed State Highway No. Five free way through Campbell.

EDITORIAL

BRACE YOURSELF FOR THIS NEW GROWTH

That the population growth in a twenty-year period for the nine bay area counties will exceed two million by 1960 was the prediction made before the Commonwealth Club at San Francisco on Tuesday by the Mayor of Sausalito. He said this means some overall master planning must be done.

If thirteen school rooms are built every day from now until 1960, we will just keep up with the need, he contended. The impact of the school problem seems to be hitting hardest in the new districts of suburban areas because of the tremendous shift recently in population.

Another problem is that of transportation, as more than one third of our three million people in these nine counties are daily on the move; so what will be their number ten years hence—and what will be the popular means of transportation?

Water conservation, smog, land reclamation, bay crossings and barriers are important problems requiring deliberate solution so as not to shackle industrial and economic development.

Industries and mercantile installations provide the major support of all public services, the speaker said, in a contention that the bay area is underdeveloped industrially.

Santa Clara County is facing this problem with a strain on its facilities. New schools seem constantly to be going up; industries are spreading; subdivisions start and are completely sold; new mercantile firms follow community developments. But the water level recedes; the smog becomes more intense; the travel on the highways increases; the taxes multiply.

It is time for a united effort in a common purpose.

BLOSSOM TIME TOURS

The first signs of prune blossoms are showing in the orchards around Campbell and the Santa Clara Valley today. Those white blossoms seen so prominently now are almond, but the prune blossoms will follow and will last until the latter part of March. Pear and cherry blossoms will then be much in evidence, not to mention the valued apricot.

A blossomtime tour, over an 85-mile route, has been planned for a public curious to view these wondrous and colorful blossoms. Arrows are to lead to and from arterial highways. Free bus tours are planned for the latter part of the month, and there will be aerial tours via Southwest Airways beginning March 14 at three dollars per person.

Coupled with awesome beds of mustard blossoms forming a yellow blanket upon which the pink and white prune blossoms flourish, it is a sight which you may well invite friends to travel a great distance to see.

CALIFORNIA CONSERVATION WEEK

California, wit hits matchless natural resources, paid but scant attention to conservation during the first century. As in other areas, its pioneer citizens and those who followed them assumed that those resources were inexhaustible.

Californians of the second century know differently. We may soon be pinched for water unless somehow more of it is conserved. Lumbermen are going in for tree-farming so that forests may be perpetuated instead of destroyed.

Areas of natural beauty have been set aside for inspiration and recreation. They too, must be conserved against the assaults of those who would exploit them. Some oil men are beginning to talk seriously of applying conservation practices here that have been adopted in other states.

To focus public attention on this all-important subject of conservation it has been the custom for many years past for Governors to proclaim and citizens to observe California Conservation Week starting with Arbor Day next Sunday. We shall have California Conservation Week with us next week.

Every citizen would do well to take a few minutes out to ask himself what he or she can do to foster the cause of conservation so that we may pass on to our children some of the rich heritage it has been our blessing to enjoy.

JUST AWARD

President Eisenhower's proposal that Charles Lindbergh be restored to the Air Force Reserve with the rank of brigadier general has met with strong public approval. The President's move was in recognition of the service which the nation's greatest peacetime hero gave without publicity in World War II. That service included the shooting down of a Jap Zero even though Lindbergh was only a civilian pilot. Of greater importance was the flying method he devised for fighter planes which cut their gas consumption by one third. Although Lindbergh was obviously wrong in his non-intervention stand prior to Pearl Harbor, he was quick to offer his services once his country was at war. He deserves the rank the President has proposed for him.

MARCH WIND'S DREAM

Profile of The Week

This column attempts to acquaint Campbell residents with the background of most of its leading citizens, to make for a greater interest in the activities of the Campbell area.

Ralph Noddin, former Campbell High School physics teacher and mentor of many championship basketball teams, spends most of his time since his retirement last year after 32 consecutive years, catching up on a two year backlog of work around his home. There is painting to be done, window fixing, kitchen repairs and a garage to be built, but he has plans for continuing his hobby of panning for gold around the gold Lake region near Feather River, and for camping, and fishing which he has been doing for years past, he said when interviewed for this week's profile.

The beloved physics teacher is perhaps best remembered by his former students, and teaching colleagues, for his pioneering efforts on behalf of Campbell High School athletics. Noddin, who came to Campbell High in October, 1921, when athletics were among the least important items of the teaching curriculum was appointed director of athletics which included forming and coaching all teams.

Sammy Reed, principal of Santa Cruz Junior High School, one of Noddin's former pupils, and one of the speakers at a commemorative ceremony last year when Noddin retired, recalled how, in 1924, Noddin, with some of his students, and with the help of civic minded residents, built the school gymnasium. The High School at that time, old timers in Campbell will remember, was located arcoss the street from its present location, where a local market now stands.

While at Campbell, Noddin taught physics, chemistry, biology, geology, and pre-flight aeronautics as well as physical education. He had also been director of extra curricular activities.

Noddin, who was born in Sonoma County, raised in Madera County, attended Clovis High School, received a B. S. degree from University of California, an M. S. degree from Stanford University. He attended five summer schools at University of California at Davis, Southern California and at Ontario.

He spent 17 months overseas during World War I, with a corps of engineers.

In 1919 he married Pernilla Nelson, daughter of Peter G. Nelson, pioneer resident of Union district. The couple now live at Harwood avenue in Union district, near Blossom Hill.

Before coming to Campbell, Noddin taught at Tulare High Schaal, in 1916-17, and at Roseville in 1920-21.

In the spring, Noddin says, he and his wife will take a trip to the Southwest United States to visit some of the desert country—the Grand Canyon, and other scenic points of interest.

Noddin is a member of Campbell Kiwanis Club, International Odd Fellows, and Campbell Post 596, the American Legion.

The Campbell Gambol

MAKE LOVE TO ME Has again been selected as the hit tune of the week by students of the Campbell High School, this being the third consecutive week in which it has polled most votes . . . there were 403 votes cast last week as compared with 235 the previous week for popular tunes with another sentimental, "Secret Love" coming in second . . . some of the wags voted for "Jingle Bells", Ninety-nine Bottles of Beer" and "Old Black Joe" as favorites . . . Campbell High now has an intermediate band known as the Strawhatters, who in their debut got off to a good start in the Old Settlers' Day parade by taking second place honors.

SPRING FASHIONS Are on the minds of some of the club leaders and so shows are being planned . . Rosemary School is to have a fashion show on the evening of Thursday, March 18 while at Saratoga there is to be a children's fashion show on Friday, March 12 . . . . high school scribes tried to bear down on fashions for boys but had to limit copy to the color and style of sweaters and sport shirts as not many hats or ties are being worn . . . same old fashions though are being worn by Mother Nature as almond trees wear a white lace dress, flowering peaches look like huge brushes daubed in red paint, apricot blossoms are peeping out with a flash of dainty pink in contrast to the dark green trunks and cherry plum blooms are like broken egg shells scattered about on willowy limbs . . . driveways are lined with daffodils nodding their heads as the man of the house drives by after the day's work . . . this is as Nature has done things for many years in the past and will continue to do things for many years to come for Nature's fashions are ageless.

TOWN TALK about the coming city election and the number of candidates on the ticket . . . about the Red Cross drive, the boy scout drive, the dog-for-the-blind campaign all under way at the same time . . . about the little league games . . . about the warm March weather and need for rain. . . . about week end trips, frolics in the snow, sojourns in the big trees, laze on the beach, cruise up the river, plane flights all a part of every day life when one lives in the orchard city in the heart of the beautiful Santa Clara Valley.

INDIAN SUMMER And early Spring combined to do things to one of Dave Sanders apple trees over on Budd Avenue as a perfectly formed apple has appeared on the limb of a Skinner seedless apple tree and there is not a leaf or blossom on the tree today . . . . ordinarily the apples form like this in July, but this stray bloom came out several weeks ago and now the apple has formed.

The SiKiang River, which rises in the Yunan Plateau in China, is approximately 1650 miles long.

Bucs Have Strong Baseball Nine As Veterans Return

Three veteran outfielders are showing class as Coach Melvin Stein's baseball team for Campbell High School takes the field in Spring practice. Bob Hoehn, Ron Hayward and Louis Nunez were on last year's team. Don Field is sparking at short and Ron Citta is holding down first base but with competition from Jim Rylie, a transfer here from Fremont High School in Oakland.

Sam Meyers is returning to the catching chores while Frank Archer and Bob Sutton have advanced from last year's freshman team for second string assignments.

Coach Stein has four hurlers to choose from in Larry Sutton, Bert Nolan, Rex Kendall and Bob Frazier. While there seems to be the usual 1954 Campbell class to the team, it is early yet to tell what they will do under competition. One never knows in baseball who will break up the game with a homer, an error or overthrow, so teamwork and spirit has to be the winning factor.

A practice game with Lincoln will be played here tomorrow afternoon while on Tuesday another practice game will be played at Menlo Park.

The first league game will be played Thursday, March 25 at Los Gatos. In the meantime the Campbell soph-frosh team plays at Lincoln tomorrow afternoon at San Jose Tech on March 12 and tackles Lincoln frosh here on March 29.

Coach Mel Stein Is Member Of Salinas Team In Central California Baseball League

Mel Stein, Campbell High School Varsity Baseball Coach, will play first base for the new Salinas team of the California League, during the 1954 season. He expects to miss many mid-week night games but will be in weekend contests in San Jose, Salinas, Modesto, and Stockton until the current school year ends on June 11th. Then, he will be available to appear in all scheduled games.

Stein will be no newcomer to local fans, who will see him in action whenever Salinas and San Jose tangle at the Municipal Ball Field, for Mel played first base for the Red Sox during the 1951-52 season alongside Eddie Sobcsak. This pair met this past week in new roles, for Eddie is now coach of Willow Glen's baseballers who met the Campbell nine at Willow Glen Tuesday afternoon.

Stein is presently on 72 hour option from a team in Crowley, Lousiana. Never heard of it you say? Well, they drew well over 100,000 fans last season, 30,000 more than San Jose.Stein has also played for teams in Austin and Abilene, Texas.

Tomorrow afternoon, Stein's high school team meets Lincoln in a 3:15 game on the Campbell diamond. They are scheduled to play eight exhibition games before their first league contest at Los Gatos on March 25th.

Campbell Students Participate In County Project

Students of Campbell High School today joined a County-wide High School endeavor to make a radio program especially of interest to high school students.

Dick Crest an instructor at James Lick High School and leader of his own band had noticed for some time that teen age music requests differ greatly from the adult opinions featured on the famous "Lucky Strike Hit Parade". He decided to start a radio program entitled "The High School Hit Parade" which is heard Sunday nights from 9-10 o'clock on station KLOK. It features the top twelve song hits as determined by the likes of high school students.

Every week ballots bearing the words "My Favorite Record of the Week is——" are printed in the school paper. Members of the student body fill the ballots out, drop them in the special ballot boxes located on the campus, and the Campus Echo staff tallies the votes obtaining Campbell's top twelve. These votes are then sent to the radio station to be tallied with the top tunes submitted from the other schools in the County.

The program is proving to be a hit among the students and parents alike.

Heart Fund Drive Getting Under Way

Progress was reported this week in the 1954 Heart Fund campaign, being conducted in Campbell and other communities of the county during the month of February.

Mrs. Dan Clark, chairman for the Campbell area, said that county-wide mailing of some 85,000 letters has been completed, outlining the work of the Heart Association and asking for financial support of the program.

Mrs. Clark said that last year diseases of the heart and blood vessels took the lives of 771,000 Americans, more than all other diseases combined.

Plastic heart coin containers have been distributed in the Campbell business district, and various special events are being planned to boost the Heart Fund, Mrs. Clark stated.

Admiral C. W. Styer is heading a similar drive in the Los Gatos and Saratoga areas. Dr. Thomas McNiff of Campbell and Mrs. Gordon A. Brown, wife of a Los Gatos physician, are members of the board of directors of the Santa Clara County Heart Association. Persons willing to help the program ars asked to mail contributions to the Heart Association headquarters, 336 Porter Building, San Jose. Money received at the headquarters will be credited to the community from which it has been sent, Mrs. Clark said.

JOHN BANKS IS NEW HEAD OF CPIA GROUP

John Banks was elected president, Tony Bilardi is the new vice-president; Sally Morton became treasurer, and Margaret Slacke was voted into the secretary's office when Cambrian Park Improvement Association elected a new slate of officers at their meeting Tuesday night in the Auditorium of Union School.

Other officers elected included: Lee Diel, chairman of steering committee, and Pat Matthison, chairman of the Ways and Means Committee.

Unit chairman elected at Tuesday's meeting were: Harrison Melbourn, Unit two; Les Chelbay, Unit three; Ron Vreeland, Unit four; John Lay, Unit five; Bill Baker, Unit six.

It was decided to by-pass election of a unit one chairman until a suitable candidate was found, after Lee Meyers, George Durkin, John Nesbitt, and Harry Sullivan declined to accept nominations for business reasonos.

James Braddock, former CPIA president, was elected chairman for a committee of investure for installation of new officers to be held at the next meeting of the association April 6, in the auditorium of Union School.

Bradock presented a short talk in appreciation of the work of outgoing officers, President Don Findlay; vice-president Peggy Meyers; secretary, Jeannette Melbourne; treasurer, Willis Butler; chairman of the Ways and Means committee John Banks; chairman of the steering committee, Lee Diel; director of Social Welfare, Virginia Miskulin; and director of publicity, Dorothy Bloom.

Edward Shaw, who recently completed a three-part report on aspects of annexation, declined a nomination for president of the association for business reasons.

In the vice-president nominations Pat Matthison and Margaret Slacke withdrew and Mrs. Matthison, nominated Tony Bilardi who was elected.

Only controversy in the elections was over the post for treasurer. Carl Ketchum gave a nomination speech for Lee Quain, and attorney Jim Ersted spoke in behalf of Sally Morton, who was finally elected by a vote of 37-7.

While Jeanette Melbourn, outgoing secretary was nominated for a second term in office, she felt someone else should have a chance at the office and withdrew her nominations.

Outgoing unit chairmen, Bill Mitchell, Tony Bilardi, Ray Lubeck and Margaret Bigelow were given a vote of thanks for their work during the previous term.

It was announced at the last meeting, that the next meeting of the board of directors of the Cambrian Park Improvement Association will be a joint meeting with old and new officers, April 6.

Final plans for the annual Cambrian Park Easter egg hunt usually held the Saturday before Easter Sunday in the fields around Cambrian Park Plaza were left up to the new slate of officers to complete.
